About Us

LawPublicus The Legal Portal is a leading journal of multidisciplinary research. It is a free, peer-reviewed, open-access journal that provides insight into diverse and dynamic legal matters.

LawPublicus is a novel initiative by legal minds. As the its name suggests, it is platform for young minds to ignite their willingness and inventiveness in order to contribute to the field of law through new ideas, opinions and thereby contributing to an informed citizenry.

We hope to provide a forum for young and enthusiastic writers to voice their feelings and research on interdisciplinary approaches. We also have in view to evaluate, explore and deliberate, under the tutelage of seasoned editors and academic experts, on current trends and projections based thereon in legal studies. LawPublicus focuses not only on the scholarly writings but also on numerous other approaches such as discussions, interviews, and debates with experts and qualified & industrial professionals.

We are determined and excited to bring authentic, creative and individual ideas and socially-related problems into attention.

LawPublicus calls for research papers, articles, short notes, book reviews & case commentaries, that are distinctive and unpublished.

With this thought, we hereby present to you

LawPublicus The Legal Portal

Farmers' Protest
Amidst the Pandemic
With Analysis of the
Recently Introduced
Farm Laws

Farmers' Protest Amidst the Pandemic With Analysis of the Recently Introduced Farm Laws

By: Nishi Chaudhary

Who is a farmer:- A farmer is a person who grows crops in their fields and provides it to all the people that's why we call them 'Ann Data' who sacrifice their comfort and food materials to all the citizens of the country.

Role of Farmer:- A farmer plays a major role in the development of the country nation and the growth of society, all the food industries are depending upon the agriculture sector, the role of farmer is the utmost important in the development of the country and the welfare of the nation.

Conditions of Farmer:- the condition of farmers is critical in India the farmer did not get their price of the commodity at the prescribed time they don't get the actual output what they deserve for their commodity this is the major issue for the condition of the farmers in India.

Political Party influence farmer :- Many political party member influence farmers for their political welfare because they think only their own welfare not the country as well as farmers welfare Now a days we see the J& Kashmir Mehbooba mufti govt. and Farooq Abdullah they acquire huge acres of farmers land for their own benefit So, these types of political leader is the biggest example of the country terrorism and violation of country peace and development different leader gives their different view but nobody for the farmers welfare if the govt. plans or do something or make amendments the other leader of the political party member influences them it is the major drawback.

Delay in decision- making:- Due to paperwork and lots of discussion while making new laws, act and amendment it will take time and due to this it causes delay in decision making.

Covid-19 strike in Delhi border:- Due to wrong rumor and influence the farmers by the political party farmer does not get the bill information which is passed by the BJP govt. and majority of farmer does not read the bill what is actually written on it, It believe it is wrong and against their farming Due to this pandemic situation of Covid many of farmer sit together without putting the mass and 33 farmers died due to the winter and many of farmer is still there, the farmer 'MOVEMENT' very peacefully without damaging and affect the govt. property due to influence and does not get the exact information this is the only reason which political party influences them.

What are the Laws:- MSP

- Contract farming
- Parlay burning
- Subsidy on electricity

Now we understand these above points:

- MSP: MSP stands for Minimum support price in which the government takes the farmer crops at the given price which is declared by the government. but the middle man does not give the actual price of the commodity to the farmers and that's why farmers want to sell their price at the cheap price.

- **CONTRACT FARMING**:- contract farming is an agreement or we can say contract between the buyer and the seller due to reduce middle man risk and protect the farmers right.
- **PARALI BURNING**:- The burning of parali is the major issue to the farmer, farmers raise their voice against it farmers say he has given the choices by the govt. rather burning of parali as well as the decompose the Parali.
- **SUBSIDY ON ELECTRICITY**:- Govt. gives subsidy on electricity to the farmers and after some times the govt. rejected the subsidy the farmer protested.

Benefits of these Laws:- These above laws provide relief and given benefits to the farmers is the straight forward person and is not aware of the bills and it is the only reason in which the farmer influences it. Some political parties do not want these laws to come for the growth and development of the nation.

How the government protects it:- The govt. takes all the steps for the welfare of the farmers and takes the steps which farmers influence them. Govt. since the first day of the farmers movement the govt communicate the farmers and provide them belief to the farmer that govt with the farmer.

Role of Media:- The role of media is the utmost important for the spreading of awareness as well as connecting the citizens for the reality which is going on. Since the first day farmers movement the media play their major role between the government and farmers. It communicates the information between them through the role of the media. We generally, local citizens and all the country members connect through the role of the media.

News reporter incidence:- The recent incidence of the female reporter as well as Male reporter is very critical at this time, some people in the form of farmers role misbehaves the news reporter like Mostly female reporters. This type of people at the forms of farmers is punishable for their act for not only influencing as well as the forms of farmer.

Shri Narendra Modi ji Says:- Our Hon'ble Prime minister shri Narendra Modi ji says that these bills are in favor of farmers and due to the influence of political parties many farmers affecting it and some farmers even can't read the bills which are written over it.

Conclusion:- Agriculture sector has played a major role in the growth of the nation since ancient times. Moreover till now the conditions of farmers is not good due to loan, mortgage of property etc. Many farmers suicide everyday thinking of no reprieve or any option rather than to do suicide. For providing relief to the middle man now the Prime Minister of India, Mr. Narendra Modi has passed the bill and it is actually beneficial to the farmers welfare but due to political influence and creating mess with the government they can't support that these bills come. A farmer has much contribution in the development of the country and as well as the growth of society. All the food industries were depending upon the agriculture sector, the role of farmers is the utmost important in the development of the country and the welfare of the nation. The condition of farmers is critical in India. The farmer did not get their price of the commodity, in addition at the prescribed time they don't get the actual output which they actually deserve for their commodity this is the major issue for the condition of the farmers in India.
